

Joshua Myers has dedicated his life to photography for the past 20+ years. He earned a BA in photography from Purdue University in 1997, and an MFA from Academy of Art University in 2016. He has worked for several years as a freelance photographer in the South Bend area. Currently he is focusing on fine art work, and teaches digital and film classes, lighting, and digital imaging at Ivy Tech Community College and the South Bend Museum of Art.

Myers enjoys working with several photographic processes, from contemporary digital photography, to large format film, to 19th century printing techniques. His fine art work focuses primarily on the human constructed landscape, finding elements of our everyday environment that can tell us about ourselves and our culture.
