

Diane reader Dorn:

Just concluded an eight week adult beginner watercolor class here at the Art Center! The class was so much fun to teach, and observe my students completing successful compositions!

Earlier this month, a Keepsake Encaustic painting workshop became a day filled with memories from the photos brought in to transfer onto prepared bees wax boards.

Recently, my "Wild and Wooley" water color painting in the Saint Joe Valley Watercolor Society exhibition won first place!

My favorite medium is watercolor! I will lead a week long, every day watercolor class during camp! This will be so much fun!

In addition to watercolor, I am introducing painting with liquid bees wax! Not too many artists paint with bees wax, but you can learn how!

Growing up in an artsy home, painting is something I have always done and still love creating new work. I earned a Bachelor of Fine Art from Texas Women's University in painting and ceramics. I have 4 "children"! Riley is about to be 3 years old, Pudge is soon to turn 2 years old, and Archie will be one. They are all boys, are best pals, and provide lots of entertainment at my home. I also have Cheyenne, my female English Golden Retriever. She is a sweetheart and could care less about the boy kitties romping around or over her or snuggling with her.
