Krista Kuskye

Krista Kuskye earned her B.F.A. from Indiana University South Bend in 2011. She has spent the past 13 years dedicated to photography. The last three years, Kuskye has worked with children, sharing her passion of photography at the museum as well as private photo tutoring. She loves working with the youth and seeing that spark in their eyes after seeing how powerful it is when they create a meaningful photograph. Encouraging students to find their creative voice is a clear goal as well as creating a fun learning environment.

An adult dark room student says, "Krista is a wonderful, nurturing, and dedicated teacher. She cares about each student and makes you feel your mistakes are actually wonderful accomplishments."
