**First Day of Class**

Please bring a drawing pad about 9 by 12 inches, or 12 by 16 inches, an eraser, and several pencils. They can be common HB or 2B pencils. The drawing pad can be made by Canson, Strathmore or others. It can be spiral bound or glued.

The second week we will use graphite sticks, available in packages of 4 or 6 at Hobby Lobby, United Art and Education and other shops.

As the class progresses, we will use an 8 by 10 sheet of Plexiglas, dry erase markers, a special angle ruler, and a sewing gauge. I will purchase these and make them available for you to buy. Total cost is about \$7. You may want to buy some additional drawing pencils, HB to 6B.

Optional: We will use the book “Drawing on the Right Side of the Brain” by Betty Edwards.

I will copy and hand out pages from the Betty Edwards workbook as the class progresses. There is no need to buy the workbook because by the end of the class you will have received all the pages. We will view video lessons each week that relate to the workbook. Some of these can be found online.
